

Adarsh Kr. Pandey

PROGRAMMER ANALYST TRAINEE

Work Experiences

Cognizant , Pune India
Programmer Analyst Trainee

2023

- Conducted thorough analysis of software requirements, identifying potential areas for improvement and suggesting enhancements to ensure robust software functionality.
- Executed manual and automated testing processes, identifying, documenting, and tracking software defects to resolution.
- Participated actively in daily stand-up meetings, providing updates on testing progress, challenges, and potential risks to project timelines.

Description

Dynamic Programmer Trainee with a background in programming and 7 months of practical experience in Quality Engineering and Assurance (QEA). Proficient in coding and adept at problem-solving, I am eager to enhance my skill set and make valuable contributions to cutting-edge software development projects.
